## **Jr. High Suggested Supply List**

- Four (4) loose-leaf binders (preferably 2" - this size works the best in different colours - Math, LA, Social, Science)
- Paper (loose-leaf)
- Pens (blue/black)
- Pencils (HB)
- Erasers - preferably white
- 30 cm ruler
- Highlighter pens
- Geometry set
- Pencil Crayons/fine tipped felts
- Calculator - a calculator in the \$15 - \$20 range that will handle the basic arithmetic functions, plus sin, cos, and tan will probably be sufficient. It should have a fraction button if it is to be used to the end of Grade 9. It is **not recommended** for students to purchase the much more expensive T1-83 series until they require its capabilities in grade 10
- Pencil box or case

**IMPORTANT:** This is a suggested list of BASIC supplies used in Jr. High. Individual teachers may have special material needs for specific classes.
