

Julian Sacher was the son of Superintendent Kurt Sacher who passed away suddenly at the age of 27 on April 1, 2019. Julian is remembered for his rapier like wit and his keen sense of humor along with his perseverance through difficult times. In June of 2017 Julian suffered from a fall which left him with a severe brain and spinal cord injury. After 4 months and 5 days in Foothills hospital Julian made a remarkable recovery with respect to his brain. Unfortunately, he remained paralyzed and was never able to walk again. In spite of his injuries, Julian was able to return to full independence and he did return to his studies in his 3rd and final year of Medical School just prior to his death. Because of Julian, the University of Calgary now has detailed protocols for doctors in wheelchairs to be successful.

Julian is remembered for his kindness and his care of others; his amazing sense of humor; and his deep commitment to medicine.
